Comprehensive Early Intervention Services minimize the impact of disabilities for infants and toddlers improving lifelong outcomes for children, families and communities. Without additional funding for direct service staff, the opportunity to improve developmental outcomes will be lost.

For 30 years now, Voices for Utah Children has called on our state, federal and local leaders to put children's needs first. But the work is not done. The children of 30 years ago now have children of their own. Too many of these children are growing up in poverty, without access to healthcare or quality educational opportunities.

How can you be involved?
