2019 edition shows highs and lows for kids

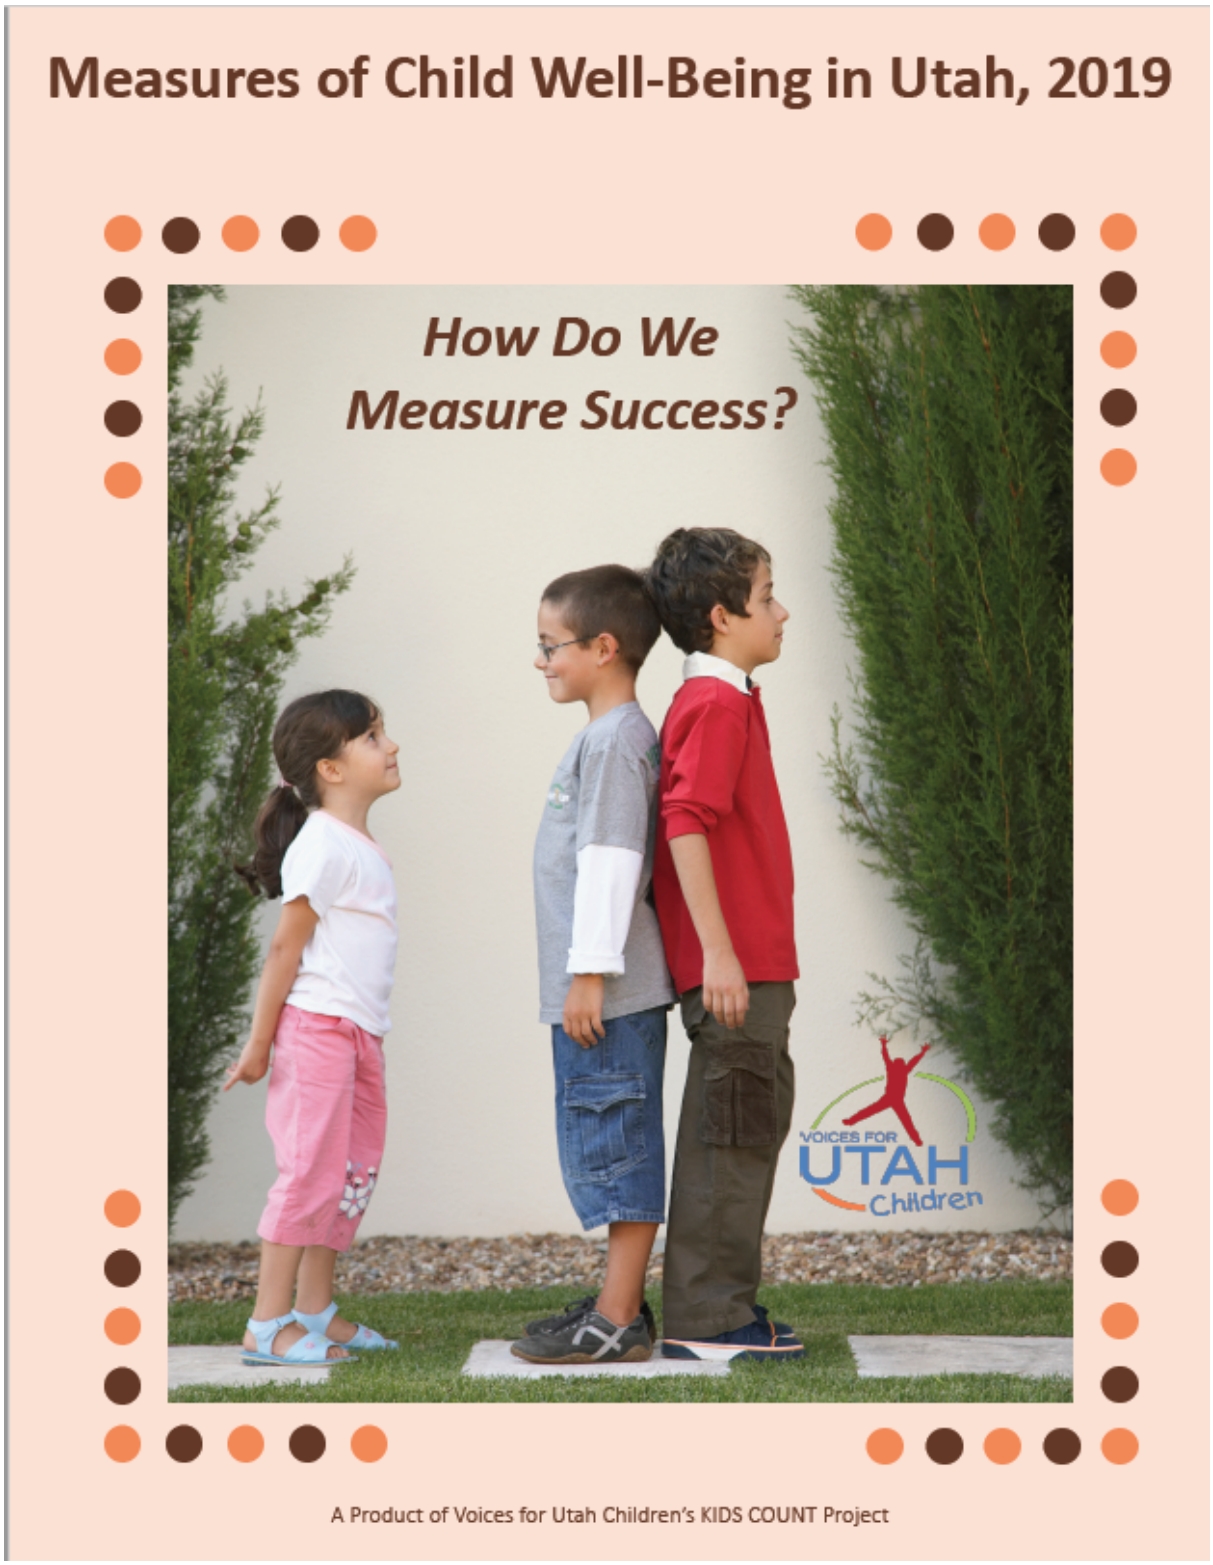

The ***Measures of Child Well-Being in Utah***, provides timely, accurate, and accessible data on how kids are doing in Utah. KIDS COUNT, a project of the Annie E. Casey Foundation, is a national and state by state effort to track the well-being of children. For 24 years Voices for Utah Children has been the Utah KIDS COUNT grantee. This year's report provides state and county data for over 25 indicators of child well-being. By providing high-quality data and trend analysis, KIDS COUNT seeks to enrich local, state and national discussions concerning ways to secure better futures for all children and to raise the visibility of children's issues through a nonpartisan, evidence-based lens.
