Too many absences—excused or unexcused—can keep students from succeeding in school and in life. How many are too many? 10% of the school year—that's 18 missed days or 2 days a month—can knock students off track.

"The reality is an absence is an absence, excused or not, and that child is not in that classroom benefiting from the instruction on that day. We have to work in our community, with our schools and our families to build a culture of attendance," said Ralph Smith, Executive Vice President of the Annie E. Casey Foundation.

Policies that help parents keep kids in school include:

- Family leave for parents
- Effective transportation systems

For 30 years now, Voices for Utah Children has called on our state, federal and local leaders to put children's needs first. But the work is not done. The children of 30 years ago now have children of their own. Too many of these children are growing up in poverty, without access to healthcare or quality educational opportunities.
